We the People
insure domestic Tranquility, provide for the common defence
and our Posterity, do ordain and establish this Constitution

Bill's Blueprint To
**Protect Our
Constitution**

My Fellow Tennesseans,

Our Constitution is under threat from the Democratic socialists running for President and their like-minded counterparts in Washington, D.C. Make no mistake, these socialists would work to impeach Supreme Court justices, pack the federal bench with liberal activist judges, eliminate the electoral college, limit our religious freedoms, and more. In fact, they already have.

Tennesseans understand how important it is to have Constitutionalist judges on the bench. We have a history of judges who follow the rule of law and do not legislate their own agenda. When judges act like lawmakers they rob you of your constitutionally guaranteed rights to determine your future at the ballot box.

That's why President Trump has endorsed my campaign. He knows Tennesseans value religious freedoms, state's rights, and Constitutionalist judges on the Supreme Court and federal judiciary. I will stand with President Trump and fight back against the socialist Democrats who seek to destroy our Conservative way of life.

As you Senator, I will protect our Constitution by:

- ✓ Confirming Constitutionalist Judges And Justices Who Won't Legislate From The Bench
- ✓ Stopping Liberals From Packing The Court
- ✓ Reclaiming The 14th Amendment For Our Unborn
- ✓ Safeguarding Religious Liberty And Freedom
- ✓ Protecting Free Speech, Especially On College Campuses
- ✓ Defending States' Rights
- ✓ Fighting To Preserve The Electoral College

As we continue to release more policy blueprints detailing how I can best serve you in the United States Senate, I encourage you to reach out and share the most pressing issues you are facing so we can implement real solutions. As your Senator, I will always work for you, but I need your help and input. I am grateful to the Tennesseans who provided information for this blueprint, and I look forward to seeing you all on the campaign trail soon to talk more about how I will stand with President Trump to defend our Constitution. If you ever need to reach me, my email is Bill@TeamHagerty.com.

Bill Hagerty

Confirming Constitutionalist Judges and Justices Who Won't Legislate From The Bench

President Trump made the right call in nominating Neil Gorsuch and Brett Kavanaugh to the Supreme Court—we need more judges like them, who will stick to the letter of the Constitution instead of legislating from the bench. Nothing is more important than appointing and confirming good constitutionalist judges to the Supreme Court and federal judiciary. We need judges who will honor the constitution and the liberties it guarantees all Americans. As your next Senator, I will stand with President Trump and vote for constitutionalist justices that are strict constructionists who won't legislate from the bench.

Stopping Liberals From Packing The Court

Since President Trump has taken office, he and the Republican-led Senate have confirmed nearly 200 federal judges. If given the chance, the radical Democrats in Washington have avowed to pack the courts with liberal judges who will legislate from the bench instead of following the rule of law. We cannot allow this to happen. With future appointments to the Supreme Court and federal court, the President and Senate will dictate the shape of the court for years to come. Tennessee needs a Senator who will vote to confirm constitutionalist justices and judges who respect the rule of law.

Reclaiming The 14th Amendment For Our Unborn

The 14th Amendment clearly says that no state shall “deprive any person of life, liberty, or property, without due process of law.” There’s no question that an unborn baby is a human being, and so abortion is a clear violation of the 14th Amendment. I have always said that abortion takes a human life, and we must do everything we can to put an end to it. As a father of four precious children, I am 100 percent pro-life and I will always fight to be a voice for our voiceless and defend their right for due process.

Safeguarding Religious Liberty And Freedom

All across the country, the liberal left is attacking our religious freedom, even right here in Tennessee. Last November, the ACLU sued the Smith County School System for allowing prayer in our classrooms and at school events. This kind of attack on religious liberty is reprehensible and cannot be tolerated. It should always be our goal to protect religious liberty. I believe in every circumstance we need to ensure the religious freedom of an individual is protected and also ensure that people aren't discriminated against. In the Senate, I will work to protect your religious liberty and ensure that no one is discriminated against.

Protecting Free Speech, Especially On College Campuses

Far too often we have seen attacks on our right to free speech, especially on college campuses. The liberal left has taken things to new heights, attacking conservative speakers or not letting them speak on college campuses because they disagree with our views. This violence and attack on our First Amendment rights must stop. To protect our right to free speech, President Trump authored an Executive Order to promote free and open debate on college and university campuses. This Executive Order was a step in the right direction, and as your Senator, I will support these initiatives to ensure our right to free speech, especially on college campuses, are protected.

Defending States' Rights

Under Barack Obama's leadership, the federal government created one-size-fits-all mandates for our education and health care system, such as common core and Obamacare - taking power away from our states. Since President Trump has taken office, we have gotten the federal government out of our lives by rolling back unpopular mandates and burdensome regulations and given more power back to the states. I have always believed it is better that these issues and others are decided at the state level where legislation responds to the unique circumstances of the citizens of a state.

Fighting To Preserve The Electoral College

The socialist Democrats running for president and extreme liberals in Washington want to abolish the electoral college to give more power to the liberal coastal elites. The radical Democrats and coastal elitist bureaucrats want to silence the voice of rural America. This attack on our Constitution is a threat to our Democracy. As your Senator, I will fight to protect our Democracy and ensure the Electoral College remains in tact.

“

I'm proud to have President Trump's complete and total endorsement, and in the Senate, I will always stand with him to to defend our Constitution.
